MOBILE CLINIC AND COMMUNITY OUTREACH IMPACT REPORT

Launched in January 2016, our Community Health team has been busy riding around town offering health education and screenings. Currently, the Mobile Clinic serves clients of the Women’s Home at the residential facility in Spring Branch, and is available on request for community outreach events. Medical services provided on the Mobile Clinic include health screenings, wellness checks, sick visits, first aid and health education delivered by clinical and outreach staff to educate patients about health issues, including social and environmental factors that can affect their health. The Mobile Clinic has two full exam areas for patients to be seen in privacy and is equipped to provide Pediatric, Family and Women's Health exams. The Mobile Clinic is wired for internet access and all information will be documented in our Electronic Health Records (EHR) System. Most importantly, we can schedule an appointment for each patient based on their chief complaint or health education needed to the SBCHC clinic location that is most convenient for them.

The Mobile Clinic is open to the public every Tuesday from 8-5 at the Women’s Home WholeLife Clinic at 1839 Jacquelyn Road - call 713.462.6565 for an appointment; walk-in appointments are available.
