## MOBILE CLINIC AND COMMUNITY OUTREACH IMPACT REPORT

Launched in January 2016, our Community Health team has been busy riding around town offering health education and screenings. Currently, the Mobile Clinic is available on request for community outreach events. Services provided on the Mobile Clinic include health screenings and health education delivered by clinical and outreach staff. Clinical and outreach staff also educate patients about health issues, and social and environmental factors that can affect their health. On the Mobile Clinic we can schedule an appointment for each patient based on their chief complaint or their need for health education to the SBCHC clinic location that is most convenient for them.
